

POWERFUL ADVANCEMENTS AND ALL-NEW FEATURES

Bring data-science to the forefront of your operations with Flux, a real-time machine intelligence and performance dashboard that is changing the way companies evaluate machinery performance. Whether you're looking to view your entire compressor fleet at a glance or gain insight into performance trends calculated in real time, Flux has quickly become a game changer for data-driven operations.

Thanks to the AXIL™ Technology Platform, Flux now comes with powerful advancements and all-new features that offer customization, speed, versatility and control to your dashboard experience.

FLEXIBLE DASHBOARDS

Build and personalize your dashboard experience, and drill down into data by comparing views

DATA ANALYTICS

Easily visualize real-time performance metrics that provide insight into unit performance

CUSTOMIZABLE EVENTS

Stay connected with push notifications sent right to your phone, email or server

FLUX MEETS YOU AT THE INTERSECTION OF SERVICE AND TRANSPARENCY, WITH:

Unprecedented Visibility

With a user friendly, web accessible interface, Flux provides Flogistix field personnel and customers with immediate answers and capabilities of seeing your long-term trends.

Your One-Stop Shop for Monitoring Fleet Status

Providing the ultimate level of visibility into field performance, Flux allows you to quickly access how your fleet of rental units is running and maintains a rolling 30-day run-time calculation to ensure you are getting the most out of your investment.

Complete Transparency

Gain full access into the information relating to your rental compressors, including real-time telemetry, run-time statistics and maintenance history.

LAUNCH YOUR FLUX EXPERIENCE TODAY!
