“MAXIMIZE YOUR RESOURCES”

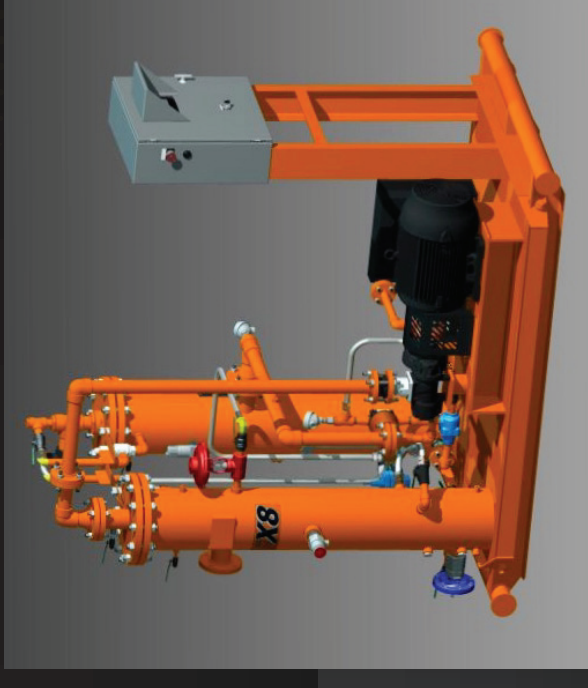

FX8E25

- > VRU and Multi-stream capable with LOGIX PLC control panel
- > Throttling recycle valve allows for smooth operation and precise suction pressure or tank vapor pressure control
- > Up to 100% capacity turndown
- > Compact 4' x 6' skid footprint
- > Includes inlet filter and automatic blowcase for liquid handling
- > Skid is Class 1 Division 2 when motor starter panel is installed in safe area
- > SCADA Communications capable via Modbus RS485 or Modbus/TCP
- > Rental units include telemetry callout system
- > Inlet pressure range: Full vacuum to 10 PSIG
- > Discharge pressure range: 50 PSIG to 200 PSIG
- > Capacity at 0 PSIG suction for VRU mode: 0-60 mscfd
